(979) 985-4994
Churchville, VA

CORE COMPETENCIES

- Custom web application development (Next.js, Node.js, Postgres)
- Custom-coded content management, not a rented template
- Accessibility remediation to WCAG 2.1 AA / Section 508
- Secure web hosting, deployment, and DNS migration
- E-commerce platform deployment with payment processing (Stripe)
- Ongoing managed services: hosting, security patching, content updates, performance monitoring

DIFFERENTIATORS

- No vendor lock-in. The code is yours, and a free Handover Package gives you everything to take it elsewhere whenever you want.
- Senior-led engagements. Direct principal access (no offshore handoffs, no account-manager layer).
- OWASP-aware build process. Custom-coded, not a rented template.
- We host and maintain it for you, so one accountable team owns uptime, security, and updates.

PAST PERFORMANCE (REPRESENTATIVE)

Specialty Retail (Shenandoah Valley, VA)
Business website with service-line marketing pages, local-business structured data, and mobile-first responsive design.
Launched 2026; analytics and Search Console baseline with ongoing SEO management.

Performing Artist Platform (Shenandoah Valley, VA)
Managed services engagement: tour-date listings, booking funnel, SEO foundation, ongoing maintenance.
Continuous uptime and security patching since launch in 2026.

Christian Academy (K–5, Elkins, WV)
Public-facing website rebuild with accessibility-first design and structured program, admissions, and staff content.
Lighthouse accessibility score of 100; built toward WCAG 2.1 AA.

Three client references with engagement scope, duration, and contact information available within two business days of request.
